

Corporate Remote & Hybrid Work Policy

SYNTHETIC SAMPLE DOCUMENT - FOR ACADEMIC RAG DEMONSTRATION ONLY

1. Hybrid Work Framework

Apex Enterprise operates on a flexible hybrid work model. Eligible employees may work remotely for up to 3 days per working week, with a minimum of 2 mandatory collaborative in-office days per week. Specific designated in-office days are scheduled by individual department heads to maximize cross-functional team collaboration.

2. Core Hours and Communication Standards

Employees working remotely must be active, reachable, and responsive during standard core business hours: 10:00 AM to 4:00 PM local time. Team members must maintain an updated Slack status and join scheduled video conferences with video enabled during team standups and client briefings.

3. Home Office Equipment Stipend

Full-time remote-eligible employees receive a one-time home office setup reimbursement of up to \$750. Eligible expenses include ergonomic desk chairs, external monitors, keyboards, noise-canceling headsets, and desk risers. Receipts must be submitted via the expense portal within 45 days of joining.

4. Remote Network Security and VPN

All remote network traffic accessing enterprise repositories, databases, or client systems must route through the corporate VPN. Working from unsecured public Wi-Fi networks (such as cafes, airports, and hotels) without an active corporate VPN is strictly prohibited.
